## Courseware Presents Common Arc Welding Processes

The company's new release of *Common Arc Welding Processes*, a training tool for industry and educational facilities that want to offer an introduction to welding without hands-on training applications, includes two DVDs and an instructor guide. Topics include a course overview, safety topics, and an introduction to shielded metal arc, gas metal arc, flux cored arc, and gas tungsten arc welding. It also provides information about consumables for the various arc welding processes.
