## *Getting the* **DETAILS. . .**

*The Juglugger Refrigerant Strap is specifically designed for use in the HVACR industry.*

### **How It Works**

Our strap wraps around your shoulder comfortably and securely without binding, securely locks to heavy tools and equipment, easy length adjustment, minimizes twisting and fiddling.

## **E A S I L Y   A T T A C H E D**

The rugged shoulder pad is covered with high quality, heavy duty Nylon and a special anti-slip fabric to keep it secure on your shoulder. The adjustable, high strength strap and 1/2" zinc plated steel snap rings make the Juglugger Carrying Strap suitable to carry heavy gear.

### **General Uses**

Our Strap is designed to safely, comfortably and easily attach to refrigerant cylinders, reclaim cylinders, as well as European approved cylinders.
